*Anca Velisar, M.S.
anca.velisar@ski.org*

Scientists at the Smith-Kettlewell Eye Research Institute are researching how central vision loss affects **balance, locomotion and mobility** in individuals with **macular degeneration**. If you have macular degeneration and no other chronic eye disease, you may be eligible.

Participation Involves:

- One-time phone call/virtual session
- Answering 3 short questionnaires with the help of an experimenter
