

Adaptive Technology Services (In-Person)

Guest Speaker: Silvana Rainey

About Silvana: Silvana Rainey is a co-founder of Adaptive Technology Services in San Francisco. For many years, she has worked with people with blindness and low vision, helping them gain access to the tools and training they need to live and work independently. She is passionate about empowering individuals to reach their personal and professional goals through technology.

What the meeting will cover

- Discuss the importance of assistive technology in the lives of people with visual impairment
- Examine how technology serves as a pathway to independence and confidence
- Explore how the right tools and strategies open doors to productivity, communication, and full participation in daily life
