

Blindness and Low Vision Support Group September 17th Recap

This was the first session in our two-part series on Smartphones and Accessibility Tools (Part 1)! We explored different tasks where accessibility features can be especially useful, and wrapped up with a discussion on communication methods, potential topics, and how to determine the right balance between in-person and online meetings.

For Part 2 in November, what interests you? (Select the tasks)

How to see/ access screens better

**How to see/access objects or the scene
in front of you**

How to navigate to a destination

How to access a map

How to access video content

**Typing/ Dictation/ Commands/ Text
entry**
